eLearning module

ICS2 Process and Data: Express

Leading for results.
Learning for purpose.

The EU's new advance cargo information system "**Import Control System 2 (ICS2**)" supports the implementation of the new EU customs **safety** and **security** regulatory regime aimed to better protect single market and EU citizens. It **collects data** about all goods entering or transiting or transhipping the EU territory **prior to their arrival** through the **ENS**.
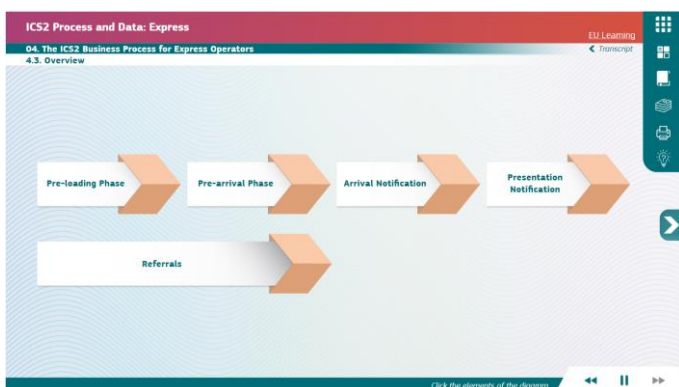

This is an eLearning module based on the **Union Customs Code** and produced by the **European Commission** under the **Customs Programme**.

Scope

This course is part of the **ICS2** eLearning Programme.

This eLearning module provides an overall business overview of ICS2 business process for express consignments from the **economic operator** perspective.

It is recommended to also take the other ICS2 eLearning modules on the *Customs & Tax EU Learning Portal*.

Audience

This eLearning module is addressed to **economic operators** dealing with the ICS2 process for express consignments.

Learning Outcomes
By the end of this module, you will have learned:

❖ The legal background related to the **entry of goods;**

❖ The economic operators' **roles** and **responsibilities**;

❖ The ICS2 business **process** for express consignments;

❖ The ENS data **requirements**.

To benefit fully from the course and to achieve the learning outcomes, it is recommended to integrate it in your own training programme and develop a blended learning strategy.
