eLearning module

Proof of Union Status System
for Economic operators

Leading for results.
Learning for purpose.

The Proof of Union Status (PoUS) system is the IT system for managing, storing, and consulting proofs of the customs status of Union goods.

The PoUS system allows customs authorities to store and exchange proof of Union status document data across the EU, and it allows economic operators to interact with customs officers of any Member State in a consistent way. This electronic infrastructure will refine the processes related to the proofs of Union status of goods.

Scope

Thanks to this eLearning course, you will become familiar with the PoUS system and the legal framework in which it fits, learn how it works and understand when and how to use it.

Moreover, you will be shown two case stories to get an overall view of the business process related to proof of Union status.

You will also be presented with six hands-on activities about the interface and functionalities of the system, that will prepare you to real-life use cases.

Audience

This eLearning module is addressed to economic operators across the EU.

Learning Outcomes

The global objectives of the eLearning module are:

- ✓ To understand the legal framework concerning the proof of Union status and learn when and how it applies;

- ✓ To acquire a solid understanding of the PoUS system and its interoperability;

- ✓ To familiarise with the PoUS system in order to manage the business processes for obtaining and presenting a proof of Union status through the electronic procedure.

To benefit fully from the course and to achieve the learning outcomes, it is recommended to integrate it in your own training programme and develop a blended learning strategy.

Features

✓ The course is designed to be flexible and personalised. You may start, pause and resume the course where you left off, at your convenience.

✓ Several interactive diagrams and two detailed case stories will help you learn visually how to handle proofs of Union status as an economic operator.

✓ In six hands-on activities, you will explore the PoUS system, previewing the day-to-day operations to be performed.

✓ Course assessment questions help you evaluate your understanding of the material.

✓ In addition to the menu, a course map allows you to quickly access the main chapters of the course. The course map is conveniently placed in the vertical toolbar located on the right side.

✓ A course summary of the most relevant information is available in a printable format. It's also possible to print any course screen for future reference.

Course duration

The time required to complete the course is around 45 minutes.

Available languages

The course is available in English. However, consult Customs and Tax EU Learning Portal for the availability of further EU language versions.

Let's get started!

The eLearning module is delivered through the Customs and Tax EU Learning portal. You need to use your professional e-mail address to connect:

✓ Use your EU Login account to login to the Customs & Tax EU Learning Portal.

✓ Access the 'Catalogue' section.

Troubleshoot technical issues and get help by clicking on "FAQ" or "Support".
