

European
Commission

EU CUSTOMS AND TAX TRAINING

Calling all tax and customs
trainers and experts with
training experience!

Taxation and
Customs Union

The European Commission is supporting national tax and customs administrations with competency-based development and training of staff.

Common Learning Event Programmes (CLEPs) and EU Training Webinars are inspired to support continuous and sustainable progress through country-specific training and cross-country expertise-building initiatives.

Get involved! Be part of a growing community of EU customs and tax training providers within the national administrations.

Deliver training on a specific topic lacking coverage at the national level or on new legislative rules.

Transfer expertise, methodologies or training practices to experts and trainers, and national administrations in participating countries.

Hosted exclusively online, the EU Training Webinars are live and engaging events in which trainers can share videos, documents, chats and screens in real-time and last for approximately 2 hours.

While CLEP events can also be online, these trainings are mainly organised face-to-face and usually run one or more days.

Benefits

Build common expertise

Connect training experiences

Transfer skills

Different training formats

Same goal: improve performance of EU customs and tax professionals by providing learning and development specific to their role.
